| ESV    | And there was a gate on the south of the inner court. And he measured from gate to gate toward the south, a hundred cubits.                                     |
| NIV    | The inner court also had a gate facing south, and he measured from this gate to the outer gate on the south side; it was a hundred cubits.                      |
| NLT    | And here again, directly opposite the outer gateway, was another gateway that led into the inner courtyard. The distance between the two gateways was 175 feet. |
