## Ezekiel 41:7

ESV And it became broader as it wound upward to the side chambers, because the temple was enclosed upward all around the temple. Thus the temple had a broad area upwards, and so one went up from the lowest story to the top story through the middle story

NIV The side rooms all around the temple were wider at each successive level. The structure surrounding the temple was built in ascending stages, so that the rooms widened as one went upward. A stairway went up from the lowest floor to the top floor through the middle floor.

The Fach level was wider than the one below it corresponding to the parrowing of the Temple wall as it rose higher. A stainway led up from the hottom level through the middle level to the too level

And there was an enlarging, and a winding about still upward to the side chambers: for the winding about of the house went still upward round about the house: therefore the breadth of the house was still upward, and so increased from the lowest chamber to the highest by the midst.
