| Hebrew | וְרָאִיתִי לְבַיִת גָּבֹה סָבִיב סָבִיב מִסֻּדוֹת מוֹסְדוֹת הַצִּלְעוֹת מְלֹךְ הַקֶּנֶה שֵׁשׁ אַמּוֹת אֲצִלָּה                                                                                                                                                                                                                                                                                                                                                   |
| ESV    | I saw also that the temple had a raised platform all around; the foundations of the side chambers measured a full reed of six long cubits.                                                                                                                                                                                                                                                                                                                       |
| NIV    | I saw that the temple had a raised base all around it, forming the foundation of the side rooms. It was the length of the rod, six long cubits.                                                                                                                                                                                                                                                                                                                  |
| NLT    | I saw that the Temple was built on a terrace, which provided a foundation for the side rooms. This terrace was 10-1/2 feet high.                                                                                                                                                                                                                                                                                                                                 |
| LXX    | <p>καὶ</p> <p>greek</p> <p>Meaning</p> <p>* And * Also * Both * Even * Too * So</p> <p>Is a conjunction that connects single words or terms or sentences. IT is most frequently translated as "and" τὸ</p> <p>greek</p> <p>The definite article θραελ τοῦ</p> <p>greek</p> <p>The definite article οἴκου ὕψος κύκλῳ διάστημα τῶν</p> <p>greek</p> <p>The definite article πλευρῶν ἴσον τῶ</p> <p>greek</p> <p>The definite article καλάμῳ πήχεων ἕξ διάστημα</p> |
| KJV    | I saw also the height of the house round about: the foundations of the side chambers were a full reed of six great cubits.                                                                                                                                                                                                                                                                                                                                       |
